Prometheus IV by Christopher Boots

Contemporary

Australia

The ancient Greek, Prometheus, gave to mortals what was re-served for the gods – fire. Here, a simple yet elegant construction creates a timeless light – a ring of 'flames'. With the gift of fire, Prometheus allowed humanity to develop. Simple yet elegant construction with warm white LED, natural uncut quartz crystals attached* with rare earth magnets, and a classic bronze ring, creates a timeless light.

CHRISTOPHER BOOTS

PROMETHEUS IV
