Agave is a collection inspired by the plant of the same name, a symbol of elegance and resilience, reinterpreted in Venetian crystal by designers García Cumini. Its iconic elongated leaf recalls Barovier&Toso's glassmaking tradition and is enriched by the dew technique, which enhances its brilliance and three-dimensional texture. An innovative shaded effect, obtained with colored glass beads, further enhances the design. This workmanship diffuses light dynamically, evoking the sun's rays filtered through the agave leaves.
