

LIANA DINING TABLE - METAL TOP

BY SISTER BY STUDIO ASHBY

COLLECTION DESCRIPTION

Inspired by the fluidity of a climbing vine, The Liana Table transforms wrought iron into something unexpectedly light and expressive. Working with artisans in Northern Italy, iron is heated until it's malleable enough to be coaxed around jigs and moulds into loops and coils that read as drawn rather than forged. The design principle is simple yet the labour is complex: make solid iron feel as light and delicate as ribbon.Choose from a sprayed finish in an edit of colours or a specialist hand-painted finish that will develop character and age beautifully over time.Solid Iron, shown here with a Palazzo Green frame finish.
