Espacio Series, Set of 3
by Mark De la Vega
Contemporary
United States

Hand-cracked eggshell, resin, lacquer, and brass.

Rendered in Eggshell, the Espacio Series explores the innate sense of movement depicted across three canvases evoking the dissemination of time. Coquille d'Oeuf is an old-world Vietnamese lacquer technique used to create delicate and unique surfaces. Each hand placed eggshell is trapped in a layer of resin and lacquer, creating a compellingly beautiful yet durable surface.
