

CIMANI MIRROR COLLECTION

BY SKRAM

COLLECTION DESCRIPTION

United States
Contemporary

Cimani is a collection of hand mirror accessories consisting of 3 unique models in different shapes and sizes. Cimani mirrors are machined in mirror-polished stainless steel, which offers exceptional optical reflectivity and durability. Matte bead-blasted detailing on the mirror surface creates visual and textural contrast while a machined, hand-riveted, and hand-finished timber handle with hanging slot and hardware for wall-mounting complete the presentation. Cimani mirrors may be used individually but are typically used in freeform or geometric wall arrangements.
