

CRUX SCONCE

BY CHRISTOPHER BOOTS

COLLECTION DESCRIPTION

CRUX explores the astronomical geometries of five stars forming the Southern Cross, one of the most recognisable constellations in the southern sky. The studio embraced this stellar arrangement, known as 'Crux', as the cosmic theme for their collection, debuted at Salone Del Mobile Milano 2024.

Centred on five luminous stars in a cross-shaped asterism, the collection interprets the celestial beacon's qualities through organic hand-blown glass forms and faceted sand-cast brass details, imbuing each piece with beauty and perpetuity.

The CRUX collection comprises one sconce and three pendant variations.
