

ESCA TABLE LAMP NO.1 IN CAST GLASS

BY REFRACTORY

COLLECTION DESCRIPTION

Esca, derived from the Latin word for lure or bait, are the small luminescent organs at the tip of the dorsal ray of female anglerfish. This luminous anatomy acts as a lure to attract prey. The Esca Lamp expresses this underwater glow either through cast glass or skimming across cast mineral, much like an ocean floor. The shade and base halves are available in either material (or both in the same), creating a broad palate for curation and light play. The shade and base elements and supported by a solid, milled bronze frame structure which is available in three finishes: Golden, Silvered and Statuary. Please specify with your inquiry.

ORIGIN

United States

TIME

Contemporary

DIMENSIONS

18.5" W x 8.25" D x 13.75" H

WEIGHT

65 lbs

ITEM NUMBER

LT-R-ESC-LMP-01
