COUP D'ETAT

MAGRITTE SCONCE

BY BAROVIER&TOSO

COLLECTION DESCRIPTION

The Magritte collection is the result of a conceptual work that investigates the idea of a chandelier to the point of rethinking and deconstructing it. Inspired by the surrealist language, the collection presents itself with a scenographic and elegant layout, on multiple levels, as tradition dictates, but in reality it reveals a new and avant-garde design. The classic central core with arms leaves room for a modular satellite system, conceived to be extended concentrically, like a cloud of light and blown glass. The collection also includes a wall sconce version with two lights; this model is discreet and refined, ideal to punctuate the walls of both public and private spaces.
