

## MUSEUM BENCH

BY BASSAMFELLOWS

### COLLECTION DESCRIPTION

United States  
Contemporary

Our version of the classic museum bench is a sophisticated hybrid, ingeniously constructed using two separate frames, one made in hand-worked brass and the other in solid wood. The inner brass frame buttresses the bench's generous horizontal span, giving it balance and strength. The design of the Museum Bench allows for multiple configurations. The outer wood frame can hold a seating cushion or tray, depending on the desired use. The bench is fully adaptable and, when combined with the tray, becomes an elegant and graciously proportioned multi-use table. Both frames are plainly visible to underscore the piece's structural integrity and synthesis of natural material. As with all the solid wood elements, precisely keyed joinery details emphasize the luxury of craft.

# COUP D'ETAT
