

OKENITE CEILING MOUNT NO. 1

BY REFRACTORY

COLLECTION DESCRIPTION

The Okenite series draws from the nature of a geode whose exterior surface, upon splitting open, is quite distinct from what is discovered on the interior. The hand-polished fins of the vessels flow into vertical spines and hulls. A ceiling mounted cast glass form, with exposed bulb or with an anchored cast bronze dome, the Okenite Ceiling Mount casts layered and nuanced light onto the ceiling surface. Glass is available with cast texture interior or with the interior surface etched. Available in a smaller size.
