

OKENITE PENDANT NO. 1

BY REFRACTORY

COLLECTION DESCRIPTION

United States
Contemporary

The Okenite series draws from the nature of a geode whose exterior surface, upon splitting open, is quite distinct from what is discovered on the interior. The hand-polished fins of the shade flow into vertical spines and hulls. The Okenite Pendant is a substantial cast glass dome with a cast bronze element above. Glass is available with cast texture interior or with the interior surface etched.

COUP D'ETAT
