

OUTSIDE IN SCULPTURE

BY PATRICK WEDER

COLLECTION DESCRIPTION

United States
Contemporary

Patrick Weder's work can be best described as a blend of streamlined architectural elegance with a loose instinctual sculptural refinement. Inspired by naturally occurring forms and by pushing raw materials beyond their practical application, Patrick consistently challenges the traditional boundaries of functional design. Doing so by developing original sculpting techniques in concrete, and by juxtaposing his organic forms and sculpted concrete elements with his signature clean minimal Swiss aesthetic.

Both practical and whimsical, the bespoke OUTSIDE IN Sculptures were inspired by the OUTSIDE IN Collection. The sculptures are hand sculpted with pigmented concrete and finished with a polished wax coat. Each concept was conceived while developing ideas for large furniture pieces. Custom sizes and finishes are available.
