

PRIMORDIAL EGG

BY JOCELYN MARSH

COLLECTION DESCRIPTION

Contemporary
United States

Each crystallized ostrich egg sits in a custom sized metal root structure, combining the fascinating inception of both plant and animal. The fossilized look of each internally metal plated ostrich egg speaks of an ancient past and animals who lived long before us.

Egg Options: White, Blue

Finish Options: Gold, Black Nickel

10" Dia. x 10" - 14"H (varies)

Price Upon Request.
