

PROMONTORY DINING TABLE NO. 1 IN CAST MINERAL

BY REFRACTORY

COLLECTION DESCRIPTION

Promontory is about the power and intricacy of armor in its many forms - from an unyielding ridge of limestone that has withstood erosive forces, to the armor of warriors throughout history and the rugged creatures that dominate the arid landscape of the American West. Shaped by evolution and developed over millennia, the shells and shields protect precious, fragile sources of life, creating tension, curiosity, and wonder when internal mysteries are revealed. The Promontory Dining Table is comprised of a cast mineral top with a cast bronze base of two asymmetrical shield-like forms. Available as custom in both single and double-base configurations. Also available with wood top. Shown here with a custom 48" diameter top.
