

PROMONTORY STANDING LAMP

BY REFRACTORY

COLLECTION DESCRIPTION

Promontory is about the power and intricacy of armor in its many forms - from an unyielding ridge of limestone that has withstood erosive forces, to the armor of warriors throughout history, to the rugged creatures that dominate the arid landscape of the American West. Shaped by evolution and developed over millennia, the shells and shields protect precious, fragile sources of life, creating tension, curiosity, and wonder when internal mysteries are revealed. The Promontory Standing Lamp is a sculptural light in which two unusually asymmetrical halves lean into one another, echoing the way in which layers of armor must flex in order to move with the wearer.
