

SILO COFFEE TABLES

BY KONEKT

COLLECTION DESCRIPTION

Contemporary
United States

Inspired by the form and function of grain silos, the Silo Coffee Tables strike a balance between utilitarian purpose and aestheticism. Available in four sizes and two height options to allow for various nesting formations.

An optional hollow dome can sit atop the table to continue the shape of the cylindrical leg — transforming it with a striking and elegant presence. The magnetized dome is removable, revealing a playful location to store small objects from TV remotes to coasters and matches.

A variety of table sizes and height options allow endless opportunities for nesting. Made by hand in Pennsylvania.
