

SLOOP CANDLE HOLDER NO. 1

BY REFRACTORY

COLLECTION DESCRIPTION

Sloop is a fleet of candle holding vessels in which fluid silhouettes compel the eye to travel, and candlelight skims the crests of sculptural texture. Inspired by ancient ceremonies, Sloop reminds us of floating tributes to fallen, transcending warriors. A cast bronze candle vessel that travels horizontally holding seven tea lights or votives that illuminate its densely textured surfaces. An expansive cast bronze candle vessel, Sloop No. 1 holds seven tea lights.
