

STUMP STOOL

BY GALLERY ELISE

COLLECTION DESCRIPTION

Contemporary
Thailand

The Stump Stool is a striking fusion of nature and artifice. With a form reminiscent of an ancient tree stump yet unmistakably man-made, its extruded quatrefoil profile nods to both Asian and European artistic traditions. This stool is not merely a seat—it's a sculptural statement that grounds any space with its symbolic presence.

Dimensions: 15.7" W x 15.7" D x 17.7" H
