
TORPEDO SCONCE

BY SKRAM

COLLECTION DESCRIPTION

United States
Contemporary

Torpedo is a L.E.D driven sconce. The main body is bronze. The end cap and hang bar – with joinery that references the traditional woodworking that defines skram's products – are gunmetal steel. Light emanates from slots on the front and sides. The rear is fully machined-out and diffused, resulting in the soft illumination of the wall. Premium quality, high-efficiency L.E.D. light engines provide outstanding quality and output. All skram lighting products rate at 90+ CRI, 2700k and are UL listed. Professional installation required. Residential or contract use.
Dimensions: Main Body: 2" W x 2" D x 19.38" H | Projection From Wall: 4" | Cover Plate: 6"
