Tributary Dining Table No. 2 with Inlay

The Tributary motif is about headwaters and braided streams and also about the nature of tribute - the channeling of materials and processes into something contributory. The works are anchoring, monumental, and express movement between elements both navigable and rough, high plateaus and shallow estuaries.

The Tributary Dining Table No. 2 is a round table exploration realized with three cast bronze uprights. Arranged in a dynamic asymmetrical disposition, two of the bases split at one end into open cuffs of burnished bronze, all supporting an ash, oak, or walnut top.

The projected shape of the three bases emerges as an inlay on the top wood surface, with additional inlays in a grouped motif.

Top also available without inlay in Collection Cast Minerals.
