

TRIBUTARY DINING TABLE NO. 1 WITH BRONZE INLAY

BY REFRACTORY

COLLECTION DESCRIPTION

The Tributary motif is about headwaters and braided streams and also about the nature of tribute - the channeling of materials and processes into something contributory. The works are anchoring, monumental, and express movement between elements both navigable and rough, high plateaus and shallow estuaries. The Tributary Dining Table is an exploration realized in two cast bronze blades. Arranged in a perpendicular disposition, the bases each split at one end into an open cuff of brightened bronze and support a solid oak or black walnut top. In this case, the profile of the monumental cast bronze bases is created as a bronze inlay in the wood surface. This approach necessitates that the top be made utilizing a thick veneer rather than constructed of solid wood, and the patina on the inlays will be in concert with the patina chosen for the bases.
