United States

Available in a variety of wood options or an Italian-made high polish lacquer finish, the Armor Coffee Table features three elliptical legs cloaked in finished chainmail. Pulling from the intricate use of chainmail in Medieval armor, we reinterpret its materiality by creating a balance between the strength that the metal mesh evokes and the elegant curves of the table. Available in two standard shapes, as well as custom shapes and sizes.

CHAINMAIL:

Konekt's Armor Collection features furniture and lighting designs that are draped in cloaks of stainless steel chainmail. Working with an American company that has been producing chainmail since 1876, we create chainmail patterns to hug the shape and size of each design. Panels of chainmail are made by machine, and then joined by hand to create a pattern. We've established our own unique finishing process, allowing us to offer extensive finish options for clients to choose from.
