

**Diamond Ring Pendant
by Christopher Boots**

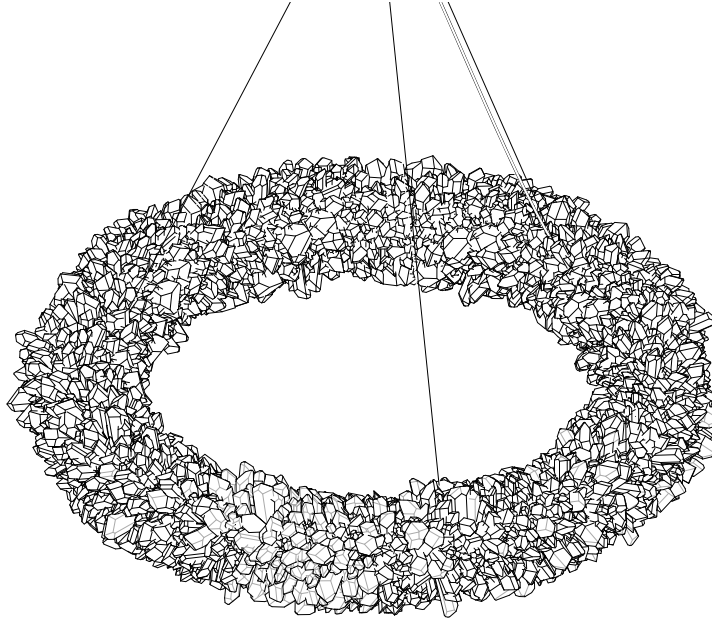

*Contemporary
Australia*

Circles have had supernatural resonance since Antiquity, embodying concepts of continuity and completion. The magic ring draws power from its circular shape, an unbreakable border that both contains and concentrates energy. In DIAMOND RING, quartz crystals appear to have bloomed from a circular frame. The crystalline growth radiates like magical residue, following the inward and outward flow of circular energy.

Like an exploded geode, DIAMOND RING reveals the mysteries of nature.
