

COUP D'ETAT

Flat Weave Rug - Natural Dégradé **by Madda Studio**

Contemporary

Mexico

The Flat Weave has a rich texture due to the irregularity of the handspun yarn and the exposed cotton warp. The interaction between the color of the wool and the color of the warp can add more warmth or coolness to the rug.

Natural Dégradé blends different tones of natural wool to create an ombre effect. This design lends itself well to multi-panel rugs due to the different compositions that emerge.

Size: Made to Order. Larger than 6ft wide will be joined together in panels. Length is unlimited. Handwoven in Mexico on a pedal loom.

Material: 100% Undyed Handspun Wool, 100% Undyed Cotton

Maintenance: Professional rug cleaning recommended. Spot clean with warm water and pH neutral soap.

Color: Madda Studio works with four tonal categories: white, light-grey, medium-grey, and dark-grey. These different hues create their various designs, and can have a lighter or darker feel depending on how the tones of wool are used and combined.

Item Number: MS-RUG-F-ND

COUP D'ETAT

COLOR DÉGRADÉ

Color Dégradé is the gradual blending from dyed wool to natural wool tones. This design can also blend dark shades of a color to lighter shades of that same color.

NATURAL DÉGRADÉ

Natural Dégradé blends different tones of natural wool to create an ombre effect. This design lends itself well to multi-panel rugs due to the different compositions that emerge.

STRIPE

Stripe design introduces naturally dyed wool, or natural tones of wool, to create defined contrasting lines. These lines can vary in width and their rhythm of repetition.

SOLID

Solid colored rugs are from our natural dyes and colors can be custom-made. The esthetic is one of uniformity with tonal variations throughout, due to the nature of the wool and natural dyeing process.
