Dischi Side Table
by **Gentner**
Design 2016
United States

With a nod to Harry Bertoia, the Dischi table is both sculptural as it is functional. Amazingly stable as a table surface, this piece is a willowy yet architectural statement which can also be customized into various shapes. Discs made of milled brass and a darkened stainless steel base, the stainless steel rods allow for the gentle movement of the table top.

Brass darkened stainless steel side table.

12" W x 12" L x 19" H
