## **Love Me Do Mirror**

*by Agrippa*

*Contemporary*

*Spain*

Inspired by the 60's, this organic-shaped mirror is committed to the simplicity of concepts.

If we cut its profile, we could see a shape similar to a boat viewed from above, and oval with two tips, as an eye. This creates an inner and outer edge. The result of this is a round shaped profile pleasant to touch, but with the nerve and character provided by the edges.

Dimensions: 54" W x 3.25" D x 82.75" H
