

Ouranos II Linear

by Christopher Boots

Mystery clouds the ancient story of OURANOS: The God of Heaven, grandfather of Prometheus, consort and son to Earth Goddess Gaia.

Concealed by time, OURANOS reminds us to push past our limitations, eyeing the skies above our clouded collective consciousness.

Glowing spheres hewn from quartz rock sweep away the mists of time, revealing an artefact of our home planet, an ode to far-flung maverick ice giant, Uranus.

An alignment of quartz spheres, unified and suspended in a linear beam of solid brass.
