Lounge Chairs

Our indoor/outdoor Rail sofa collection has its roots in the Arts and Crafts Movement but updates and elevates it with a sculpted and more severe utilitarian style. We developed the system for a specific environment - a client's guest house/ pool pavilion we designed near our base in New Canaan, formed out of a single long rectangle, with a substantial cantilevered element at one end, and a central covered outdoor room. When opened up, it creates one singular living space, running the entire width of the pavilion. We created Rail to seamlessly integrate these indoor and outdoor living rooms with a singular visual element.
