River Side Table

by konekt

Contemporary

United States

Inspired by stones shaped and polished by ever-evolving bodies of water, the River Side Table presents a sculptural, asymmetrical form made up of soft curves and lines. The table is expertly made by handlayering "berglass and gel coat over several days, evoking a sense of fluidity on a solid form. An inset piece of marble serves as a table surface and a complimentary pairing. Available in either an opaque black "nish, or in a uniquely formulated cream "nish combining both opaque and translucent movement. Made by hand in Pennsylvania.
