

CB-570 Sling Club Chair
CB-571 Sling Ottoman in White Ash

Sling Club Chair and Ottoman

by BassamFellows

Contemporary

Italy

The design vocabulary of the Sling Chair is analogous to BassamFellows' Wood Frame series: a seat engineered for comfort is suspended in a cubic frame, with a reclining back pitched to an angle that allows for both engagement and repose. BassamFellows pushes the structural boundaries in its designs while elevating design details to rarefied moments that quietly radiate true craftsmanship. The Sling Chair exemplifies this balance by pairing exceptionally soft and noble leather cushioning, filled with feather and down, with a litesome four-post wood and steel structure. Nanoceramic coated steel tubes form a structural cage that supports a sling hammock of stitched leather straps anchored at the chair's top rail and seat deck.
