BassamFellows believes that every component of contemporary living should be beautiful, even the items some may consider quotidian. This notion - elevating an everyday storage receptacle into a piece of functional art - inspired the BassamFellows accessories collection. By contrast to the Sharp Collection, the Soft Collection features gently turned edges, celebrating the tactile and warm nature of each piece, which is carved from a solid wood block. Items of sculpture in their own right, the series can be used individually or as part of the modular system.

Consisting of a long box, a short box, each with lids, and an organizing tray, these elemental, strikingly simple storage containers add an accent of luxury to any interior.
