

CB-284 Spindle Counter Chair in Oak

Spindle Counter Chair

by BassamFellows

Contemporary

Italy

The Spindle Chair was inspired by a visit to Louis Kahn's Exeter Library. Designer Craig Bassam's imagination was ignited when he noticed the traditional utilitarian chair juxtaposed against the powerful geometry of Kahn's building. Seduced by its elemental simplicity, Bassam wanted to offer a new take on the classic piece, a descendent of the classic English Windsor Chair. One first notices its weightless quality, which Bassam achieved by using metal for the chair's legs and spindles, giving the illusion of two floating surfaces. A counterpoint to the metal spindles is the chair's timber elements, including an ultra-comfortable ergonomic seat carved from solid wood.
