

# COUP D'ETAT

## **Splat Lamp** *by Daniel Shapiro*

*Contemporary*

United States

In this new body of work Daniel demonstrates his affection for designing processes that render unexpected results with each execution. The Splat Lamp's shade and base are hand built as a single piece in Shapiro's studio. Once constructed and partially dried, three stained clay slips are catapulted at the form in layers creating a color approach that simultaneously feels purposeful and by chance. Once fired the 24k gold overglaze is hand painted and fired again creating the feeling of a gold explosion.

**Dimensions:** 10.5" W x 16" H

**Materials:** Stoneware, Glaze, 24k Gold Luster, Electrical Components, and Glass

**Item Number:** LT-DS-SPLAT

**Price Upon Request**

**Please Note:** While each Splat Lamp is similar in concept they are all unique in finish.
