

COUP D'ETAT

The Rumble Floor Lamp #1 *by Daniel Shapiro*

Contemporary

United States

With a shape inspired by the sound waves of rocket launches near Daniel's first studio, the Rumble Lamp is constructed of 30 extruded patterns, each meticulously scored, slipped, and assembled with precision, aided by laser guides. After the bisque firing, a central support structure is removed, revealing the final form for glazing.

While each Rumble Floor Lamp is rooted in the same conceptual core, the crafting process of each lamp is a unique journey, resulting in a singular piece distinguished by its individual number. Available in various finishes, these lamps are customizable through commissioned orders.

Dimensions: 72" H x 23.25" DIA

Materials: Stoneware, Glaze, Electrical Components, and Glass

Item Number: LF-DS-RUMBLE-1

Price Upon Request.
