

CB-33 Tray Rack Side Table

Tray Rack Side Table

by BassamFellows

Contemporary

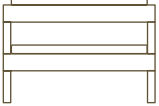

Italy

The idea of modularity is at the heart of the innovative BassamFellows Tray Rack Side Table, conceived in the spirit of luxurious contemporary living. The table provides a supremely simple and functional end table. Like other pieces in the collection, the Tray Rack utilizes the Stacking Tray as a basic building block. The Tray Rack is honestly constructed using alternating sections of solid wood that are layered and stacked to support the carved Stacking Trays. Solid brass 'runners' allow the trays to slide out for easy access. The effect is a piece that looks immaculately tailored. This is the kind of piece that is always useful and never out of place. The modular Tray Rack system is highly adaptable to different living or commercial environments. The Tray Rack table is suitable for any use where an end table is required. From bedside to the executive office, the removable trays are perfect for serving or entertaining.
