

## Thing 2 Stool

by Konekt

Contemporary

United States

Refined yet wild, the Thing Stools feature luxuriously upholstered tops, accented with the warmth of brass and the coarseness of horse hair. Each stool's unique personality is created from a distinctive combination of contrasting materials.

Made by hand in Pennsylvania.

*\*The Thing 2 Stool with horse hair is recommended for light use only. The horse hair on this stool is contained and kept straight by three brass rings. If the hair is pulled at, snagged or mishandled individual hairs can come loose from the rings. For medium to heavy use, we recommend this stool style without horse hair.\**
