Seat Height :	17.75	45

**Weight** 39.5 lbs

### Materials Finishes

Cast Bronze Handle Cinder  
Jet Black  
Leather  
Natural  
Otter  
Polished  
Silver Dollar

Wood Bison Walnut  
Brindle Oak  
Caliche Oak  
Dusk Oak  
Matchstick Oak  
Mustang Oak  
Nocturne Oak  
Raven Oak  
Salt Flat Oak  
Trail Oak

## Holotype Side Chair No. 1

The Holotype Chairs were first shared at Alcova, during Salone de Mobile in Milan Summer of 2022 during Refractory's multi-sensory installation titled Holotype. The pieces are an exploration in solid wood, pulling from Refractory's interest in expressing works by virtue of substantial volumes and planes in contrast with subtle and sculpted transitions. These volumes are in lieu of linear members and limbs, combined with exposed hardware, and punctuated with cast bronze pulls.

The Holotype Side Chair No. 1 is built from solid white oak or american walnut with a textured cast bronze element at the back, cast from a woven arrangement of porcupine quills. The series is named in homage to our first international exhibit, as well as our first foray into solid wood chairs.
