Tables

The BassamFellows Kant Table was originally designed as a private commission for a home in New Canaan, CT. The client desired a substantial, modern looking table that would hold its own within an oversized dining room. The Kant Table is a natural companion for the Mantis Side Chairs as it offers a similar study in contrasts: strong and elegant, sharp and curved, solid and light. Due to the table's ambitious dimensions, the challenge was to create an elegant, visually light base that would provide structural support for a solid wood top. Borrowing from architectural principles, the resulting tabletop is supported by twin beams and angled legs bound by a V-shaped truss support. Marrying the elegant with the formidable, the Kant Table offers great versatility. Counter height versions of the Kant Table are also available.

CB-392 Kant Table 6 Seater
