Scimitar Dining Table

The ethos of the Scimitar edition embraces rigor, wear, and time by referencing the hard-worn artifacts and bygone aspects of the frontier. Saddles, bridles, and hides are considered. Each work bears the mark of its making but also the mark of a possessor, the way they interact with and lean onto it, rendering an utterly personal sculpture unto itself - and again over time. The Scimitar edition in cast bronze expresses wrapped bison hide and is intended to capture stories and provenance, changing subtly over the years, becoming ever-more contemplative. The Dining Table brings sculptural bronze to the corners and up onto full place-settings at the ends, where the material is meant to be lived against.

The Scimitar Dining table is large rectangular wood top with sloping edges, supported by two monumental cast bronze table-ends that flow in the legs featuring the bison skin texture.
