

WINGS OF PEGASUS

WINGS OF PEGASUS, a captivating lighting series that echoes the winged form of divine stallion, Pegasus, and the glittering qualities of its constellation. The collection recalls the story of Pegasus, the offspring of the gorgon Medusa and the sea god Poseidon. Associated with the Muses, the goddesses of the arts and inspiration, Pegasus was said to have created a namesake constellation by striking the ground with its hooves, inspiring the collection's astral expression.

First created exclusively for the Hermès holiday vitrines in New York, WINGS OF PEGASUS is available in pendant and sconce

iterations. Skilfully hand-assembled using gradient natural quartz crystal and brass fittings.

Wings of Pegasus Sconce finished in Gradient Quartz.
