Framed Tiled Artwork

by Linda Fahey

Contemporary

United States

Hand-built ceramic tiles in varied shapes, textures, and deep tonal glazes come together in this one-of-a-kind wall installation by Linda Fahey. Drawing inspiration from the Northern California coast, Fahey creates a dynamic, sculptural composition that shifts between glossy, matte, and patterned surfaces. The result is a richly layered artwork that feels both organic and meticulously composed.

One-of-a-kind tile artwork by artist Linda Fahey encased in a steel frame.
