COUP D'ETAT

Character Table Lamp
by Daniel Shapiro

Contemporary

United States

In his series "Fast Life. Past Life", Daniel Shapiro breathes new life into hundreds of forgotten ceramic molds dating from the 1940s through the 1980s, rescued from barns, garages, and basements throughout the Midwest.

Each piece is entirely unique, the result of an unpredictable combination of found molds, personal histories, and Shapiro's own imagination. Together, they form a collection that celebrates the forgotten, the discarded, and the possibility of a second life.
